SUMMARY

In the book *Meditations by Marcus Aurelius*, he says "**Waste no more time arguing what a good man should be**". There's an endless discussion on what a good man is, but It is not what we say that defines them, but what we do. My name is **Adam Filchoir, a Computer Science student from Asia Pacific University**, there I aim to be active in communities, clubs, volunteering, even joined a few competitions around campus and was able to win some. A humanitarian and a reader at heart. Academically sufficient with an **enjoyment for coding**, an **Interest in Web-Dev and AI**. There is much I can improve on to be a good man or perhaps, candidate. The next words from Marcus assures that it all begins with our will, so he says, the best you can, to "**Be One**".
